Types of projects that will be considered are: new builds, refurbishment and improvements of village halls, scout huts, youth clubs, community centres and similar (this often includes access for the disabled, modernising kitchens, new storage space and updating toilets in line with Health and Safety regulations and the Disability Discrimination Act); equipment; specialised transport; and IT. Applications are open all year round.

Community Service Grants

The key elements of grassroots change and support comes from community programmes and those charities that work within these areas trying to make living spaces better and more inclusive for those who are living there.

Awards for All

Awards for All offers grants of between £300 and £10,000 for grassroots and community activity that aims to improve life for local people and neighbourhoods. It doesn't have a deadline and you can apply at any time. It is the most popular grants programme so they will prioritise groups with smaller incomes. Due to high demand on the programme, organisations that have a large annual income may not be able to get funding through Awards for All. It is recommended that you send your application at least four months before you want your project to start.

There is very clear criteria as to what they can and cannot fund and how they are prioritised.

You can apply to Awards for All England if you are a community or not-for-profit group, parish or town council, health body, or school. You do not need to be a registered charity to apply. You must have a bank account that requires at least two people to sign each cheque or withdrawal.
